for

THE PUBLICATION OF THE COMMITTEE FOR ENVIRONMENTAL INFORMATION

October, 1958 - December, 1968

The publication began as a small, mimeographed bulletin, called simply INFORMATION. With the fourth issue, it became NUCLEAR INFORMATION; this and all succeeding issues were printed. With the exception of a special 20-page issue on Project Chariot in June, 1961, all issues were 4 to 6 pages until April, 1962.

For the remainder of the issues listed here the size ranged from 8 to 40 pages.

Beginning with Volume VII, Number 8, August, 1964, the name of the publication changed to SCIENTIST AND CITIZEN, and it published articles on a wide range of environmental subjects in addition to continuing coverage of the peaceful and military uses of nuclear energy. Beginning with Volume VIII, a Table of Contents has been published in the last issue of each volume.

Where complete volumes prior to current volume are available, they may be ordered for $8.50 per volume.

Microfilm copies of all issues listed here are available from:

University Microfilms
300 North Zeeb Road
Ann Arbor, Michigan 48108

Xerox copies of individual articles: 25¢ per page from:

Circulation Department
Environment
438 North Skinker Blvd.
St. Louis, Missouri 63130

The magazine is now called ENVIRONMENT. It is published monthly except for combined January-February and July-August issues. Issues range in size from 32 to 60 pages. Subscription rates are as follows: 1 year $8.50, 2 years $14.00, 3 years $20.00, student $6.00, foreign subscriptions $1.50 per year additional.

Volume I
(8 numbers)

| | | Page |
|---|---|---|
| Number 1<br>October 24, 1958<br>(6 pp. mimeo) | Rate of Nuclear Explosions Highest in History | 1 |
| | "Clean Bombs May be More Dangerous than 'Dirty' Bombs" | 1 |
| | World Scientists Agree on Fallout Danger | 3 |
| Number 2<br>November 24, 1958<br>(6 pp. mimeo) | Latest Report on Strontium 90 in St. Louis Milk | 1 |
| | Fallout in Other Foods | 4 |
| | Hunting Strontium 90 | 5 |
| Number 3<br>December 24, 1958<br>(5 pp. mimeo) | Baby Tooth Survey Launched | 1 |
| Number 4<br>January 23, 1959<br>(4 pp.) this and all succeeding issues printed | How Many Mice Make an Experiment? | 1 |
| | First Data on Genetic Damage to Humans from Radiation | 2 |
| Number 5<br>February, 1959<br>(4 pp.) | Milk and the Strontium 90 Problem | 1 |
| | A Tropical Garden - Or a New Ice Age? | 3 |
| | Contributors to this issue: Walter C. Bauer, Barry Commoner, John N. Ong, Jr., Richard C. Pilger | |
| Number 6<br>March, 1959<br>(4 pp.) | Strontium 90 and Common Foods. By Herman T. Blumenthal | 1 |
| | Baby Tooth Survey is on its Way. By Florence Moog | 3 |
| | How Does Strontium 90 Get into Plants? By Barry Commoner | 4 |
| Number 7<br>April, 1959<br>(4 pp.) | New Radiation Standards. By Gloria Commoner | 1 |
| | Radiation Hazard--A Problem in Public Health. By Miriam P. Pennoyer | 2 |
| | Strontium 90 in the Atmosphere and On Earth. By John M. Fowler | 3 |

| | | |
|---|---|---|
| Number 8<br>May-June, 1959<br>(6 pp.) | Fallout--A Forecast for St. Louis. By Barry Commoner, John M. Fowler, T. Alexander Pond, Eric Reiss and J.B. Reynolds | 1 |
| | Fallout Effects...CNI Calculation. By John M. Fowler and Eric Reiss | 2 |
| | Fallout Effects...From Kulp Bone Studies. By T. Alexander Pond and Michael Friedlander | 2 |
| | Unsettled Questions. By Barry Commoner | 3 |
| | Fallout Radiation vs Natural Radiation. By Barry Commoner | 5 |
| | Hearings Reveal New Facts. By J.B. Reynolds and Barry Commoner | 6 |
| Volume II<br>(9 numbers) | | |
| Number 1<br>September, 1959<br>(4 pp.) | Nuclear War in St. Louis: One Year Later. By Florence Moog with technical assistance of Walter C. Bauer and J.B. Reynolds | 1 |
| Number 2<br>October, 1959<br>(4 pp.) | Mothers Ask--What Should We Feed Our Kids? By Doris Deakin and Miriam P. Pennoyer | 1 |
| Number 3<br>November, 1959<br>(4 pp.) | Radiation--How Much is Too Much? | 1 |
| | Leukemia and the Atom Bomb | 1 |
| Number 4<br>December, 1959<br>(4 pp.) | Radioactive Wastes--An Unsolved Problem. By Barry Commoner and J.B. Reynolds | 1 |
| Number 5<br>January-February 1960<br>(4 pp.) | Radiation and Birth Defects. By Florence Moog | 1 |
| Number 6<br>March, 1960<br>(6 pp.) | The Detection of Nuclear Tests. By Barry Commoner and John N. Ong, Jr. | 1 |
| | Making the Detection System More Sensitive. By Jay Orear | 3 |
| | Digging the Big Hole. By John N. Ong, Jr. | 4 |

| | | |
|---|---|---|
| Number 7<br>April-May, 1960<br>(6 pp.) | How Much More Fallout? By John M. Fowler | 1 |
| | Strontium 90 Levels in Food. By T.A. Pond | 3 |
| | Removing Strontium 90 From Milk. By Barry Commoner | 5 |
| | New Book on Fallout. Review of "Fallout: A Study of Superbombs, Strontium 90 and Survival" By John M. Fowler. Reviewed by Eric Reiss | 6 |
| Number 8<br>June, 1960<br>(4 pp.) | Project Plowshare<br>Blasting a Harbor. By Christoph Hohenemser | 1 |
| | What is Plowshare. By Christoph Hohenemser and Barry Commoner | 1 |
| Number 9<br>July, 1960<br>(4 pp.) | More on Plowshare<br>Electricity from Nuclear Explosions. By Christoph Hohenemser | 1 |
| | Mining for Radioactive Isotopes. By Brian Pate | 2 |
| | Neutron Experiments. By Franklin B. Shull | 3 |
| Volume III<br>(8 numbers) | | |
| Number 1<br>October, 1960<br>(4 pp.) | Pigs, Cows and Fallout. By Eric Reiss and Barry Commoner | 1 |
| Number 2<br>November, 1960<br>(4 pp.) | Radiation: How Does it Affect the Unborn? | |
| | Birth Defects and Chromosome Changes. By I.H. Herskowitz | 1 |
| | Environmental Radiation and Birth Defects. By H.T. Blumenthal | 3 |
| Number 3<br>January, 1961<br>(6 pp.) | Fallout: Final Figures. | 1 |
| | How Hot is Missouri? | 1 |
| | Nuclear Misinformation | 3 |
| | This issue prepared by John M. Fowler and Eric Reiss | |

| | | |
|---|---|---|
| Numbers 4-7<br>June, 1961<br>(20 pp.) | Project Chariot | |
| | The Known and the Unknown. By Barry Commoner, Michael Friedlander, Christoph Hohenemser and Eric Reiss | 1 |
| | The Purpose of Project Chariot. By John S. Kelly | 1 |
| | Excerpts from Statement by Gerald W. Johnson. | 2 |
| | Predictions of Fallout from Project Chariot. By Michael W. Friedlander | 5 |
| | Biological Risks from Project Chariot. By Barry Commoner | 9 |
| | Cape Thompson | |
| | The Place. By the Alaska Conservation Society | 13 |
| | The People. By Don Charles Foote | 13 |
| | The Animals. By William O. Pruitt, Jr. | 15 |
| | The Plants. By Leslie A. Viereck | 19 |
| Number 8<br>October, 1961<br>(6 pp.) | 1961 USSR Test Series Through October 4th. By John M. Fowler | 1 |
| | Radiological Health Research in the St. Louis County Health Department | 3 |
| | The Frequency of Cancer Among A-Bomb Survivors in Hiroshima City, Japan. By H.T. Blumenthal | 4 |
| Volume IV<br>(9 numbers) | | |
| Number 1<br>November, 1961<br>(5 pp.) | Baby Tooth Survey--First Results. By William Krasner. Based on a paper by Louise Reiss | 1 |
| Number 2<br>January, 1962<br>(4 pp.) | Short-lived Radioactive Debris from Nuclear Weapons Tests. By Brian D. Pate | 1 |
| Number 3<br>February, 1962<br>(4 pp.) | Is There a Threshold? By Esther K. Sleator and William W. Sleator | 1 |

| | | |
|---|---|---|
| Number 4<br>March, 1962<br>(4 pp.) | Civil Defense--The Citizen's Problem. By Barry Commoner (First in a series on Nuclear War and Civil Defense) | 1 |
| Number 5<br>April, 1962<br>(8 pp.) | Food and Fallout. By Eric Reiss and Herman T. Blumenthal | 1 |
| | Comments<br>Allen M. Butler, Donald R. Chadwick, R.H. Wasserman, Jules Hirsch, Herta Spencer, D. Harold Copp | 6 |
| Number 6<br>May, 1962<br>(8 pp.) | When Scientists Disagree, An Editorial Statement | 1 |
| | Hazards of Radioactive Fallout. By the Committee on Environmental Hazards, American Academy of Pediatrics | 2 |
| | Facts on the Fallout Hazard. By the Scientific Advisory Board, Nuclear Information | 4 |
| Numbers 7,8<br>July, 1962<br>(21 pp.) | Strategic Weapons of Nuclear War. By the Scientific Advisory Board, Nuclear Information<br>(Second in a series on Nuclear War and Civil Defense) | 1 |
| | On Scientific and Political Disagreement. By Virginia Brodine | 19 |
| Number 9<br>September, 1962<br>(12 pp.) | The Iodine Story. By Robert H. Wurtz | 1 |
| | No Radiation Protection Guidelines for Fallout | 12 |
| Volume V<br>(10 numbers) | | |
| Number 1<br>October, 1962<br>(14 pp.) | War and the Cities<br>(Third in a series on Nuclear War and Civil Defense) | |
| | Target City. By Roger Signor | 1 |
| | Blast and Heat Effects of a Twenty Megaton Surface Explosion On a Clear Day (Chart) | 3 |
| | City and Missile Base. By Steven A. Zemelman | 5 |

| | | |
|---|---|---|
| Number 2<br>December, 1962<br>(8 pp.) | The $N^{th}$ Country Problem. By Christoph Hohenemser<br>(Fourth in a series on Nuclear War and Civil Defense) | 1 |
| Number 3<br>January, 1963<br>(13 pp.) | The Starfish Test. By James A. Van Allen | 1 |
| Number 4<br>February, 1963<br>(14 pp.) | Germs and Gases: Question Marks of Modern War. By Louis E. Carlat<br>(Fifth in a series on Nuclear War and Civil Defense) | 1 |
| | Review of "Project Plowshare" by Ralph Sanders<br>Reviewed by Virginia Brodine | 11 |
| Number 5<br>March-April, 1963<br>(14 pp.) | Strontium 90 Fallout | |
| | Baby Tooth Survey--Some Results. By Virginia Brodine. Based on a paper by Harold L. Rosenthal, John E. Gilster and John T. Bird | 1 |
| | Fallout in Food. By Irving Michelson | 3 |
| | Strontium 90: An Inventory. By John M. Fowler and Steven A. Zemelman | 8 |
| | Genetic Effects of Strontium 90. By Robert Karsh | 10 |
| | Closing the Information Gap | 11 |
| Number 6<br>May, 1963<br>(17 pp.) | Economic Recovery After Nuclear War. By Ronald Ridker<br>(Sixth in a series on Nuclear War and Civil Defense) | 1 |
| Number 7<br>June, 1963<br>(8 pp.) | Radiation and Childhood Cancer. By Steven A. Zemelman | 1 |
| | Radiation Protection Standards. By the Committee for Nuclear Information | 6 |
| | News Notes | 8 |

| | | |
|---|---|---|
| Number 8<br>July, 1963<br>(13 pp.) | Social Effects of Nuclear War. By Robert A. Dentler and Phillips Cutright<br>(Seventh in a series on Nuclear War and Civil Defense) | 1 |
| | NI Exchange<br>Removing Strontium from Milk, Ruth Griggs; A Challenge to Readers, Non-scientist; Nuclear Information in the Library, Mabel S. Proctor; A New Baby Tooth Survey; Preliminary Report on Ravenswood | 11 |
| Number 9<br>August, 1963<br>(14 pp.) | Local Fallout: Hazard from Nevada Tests. By the Technical Division, Committee for Nuclear Information | 1 |
